OVERVIEW

Leadership Baldwin seeks to partner with one nonprofit organization for the LB24 Class Project. The selected organization will benefit from a dedicated team of individuals with various backgrounds.

Leadership Baldwin was created out of the Milledgeville-Baldwin County Chamber of Commerce in 1981 “as a way to cultivate the talents and knowledge of civic-minded citizens who aspire to participate in shaping the future of their community,” but as of July 2022, the Milledgeville-Baldwin County Chamber Foundation manages the program. Leadership Baldwin provides those within the group valuable training and learning experiences that may be used to help make the local community a better and brighter place. One goal of the program is to funnel the talents of each class into one class project, finalized prior to the class’s graduation in April.

Leadership Baldwin is currently accepting applications for the LB24 Class Project which will be in partnership and collaboration with a local nonprofit organization. The goal is to complete a project that will contribute to the mission of the partner and make a measurable difference for the nonprofit and its beneficiaries.
